

Before shipping, all panels and pallets should be inspected for any signs of damage. Solar panels can be packed on pallets either horizontally or ...

Solar Panel Packaging Basics  
Problems of Bad Packaging  
Dangers During Loading and Transport  
Solar panels are typically either horizontally or vertically stacked in a box. Usually, separators are placed between each module, and extra protections are added to the four corners of each module stack. In some cases, modules are also packed in individual cartons boxes to be packed into a large master carton box. The box on the pallet is then sealed...
