

Jun 19, 2025&nbsp;&nbsp;Latvia's Energy Strategy 2050 outlines major changes in renewable energy production and storage, with significant investments ...

Nov 7, 2024&nbsp;&nbsp;Hoymiles has announced the completion of Latvia's first major energy storage facility, in which it has played a pivotal role. The Targale ...

A study of solar panel efficiency in Latvian climate conditions This paper deals with the optimization of a proposed solar panel array of a renovated office building""s communal lighting ...

Feb 24, 2025&nbsp;&nbsp;A solar PV plant in Latvia that Latvenergo deployed via subsidiary Elektrum. Image: Latvenergo. Latvia state-owned utility and ...

Solar engineering projects need energy storage Energy storage helps maintain a consistent power supply from renewable sources like solar and wind, which are inherently intermittent. By ...

Riga Energy Agency (REA) is a municipal agency founded in 2007 for the purpose of planning, management, monitoring and coordination of energy- and climate- smart and sustainable ...

May 1, 2022&nbsp;&nbsp;The Riga solar map is based on a practical photovoltaic (PV) potential called the PV power output (PV out), which is a specific yield, representing the amount of power ...

May 27, 2024&nbsp;&nbsp;In this context, the International Energy Agency (IEA) conducts Energy Policy Reviews to support governments in developing more impactful energy and climate policies. ...

Feb 18, 2025&nbsp;&nbsp;A growing demand in the energy market for battery energy storage system (BESS) technologies is developing currently, and the trend is expected to remain stable in the future. ...

Discover EU energy initiatives and policies, including sustainable development, renewable resources, and efficiency measures to promote a greener future.

Nov 10, 2025&nbsp;&nbsp;European Energy has secured EUR 37.9 million of long-term project financing for a hybrid solar and battery storage project in Saldus, Latvia. Once operational, it will be among ...

Mar 1, 2024&nbsp;&nbsp;The two grid-scale battery energy storage systems will be connected in autumn 2025, aiding Latvia's synchronization with the continental European power grid.

List of Latvian solar panel installers - showing companies in Latvia that undertake solar panel installation,

including rooftop and standalone solar systems.

May 27, 2024&nbsp;&nbsp;In this context, the International Energy Agency (IEA) conducts Energy Policy Reviews to support governments in developing ...
